## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 24-35, 39, and 40 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 26 recites, inter alia, said controller makes the first switch and breaks the second switch when said apparatus is operated and connected to an electric power system, and breaks the first switch and makes the second switch when said apparatus is operated and no connected to the electric power system, and said controller controls the operation of said booster and inverter circuits based on a connection state of said first or second output port.

Claim 40 recites, inter alia, discriminating an operation state of the power converting apparatus and a connection state between the first or second output port and an electric power system; making and/or breaking the first and second switches in accordance with the discriminated operation and connection states; and controlling operation of the booster and inverter circuits in accordance with the discriminated operation and connection states.

The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include either of the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
